For Immediate Release 09/03/2022

In light of recent speculations and hearsay concerning Black Sherif, EMPIRE and his management we would like to make certain clarifications.

Black Sherif is still under his management Road Boys Association (RBA) and has not parted ways as publicized on the various media platforms.

The management of Black Sherif is focused on further developing the talent and brand of the artiste to ensure 1) growth in Ghana and beyond, 2) development of new fanbases, 3) global protection of artiste's intellectual property, and 4) 100% ownership of artiste's masters, as aligned with our vision.

The various interpretations given to the purported documents surfacing online are however false and must be treated as such.

There was a consensus ad idem between both parties, and EMPIRE has been undeniably instrumental in the growth and reach of the artiste.

Furthermore, the actual partnership agreement between EMPIRE and Black Sherif reflects the intent of the artiste, having gone through all the necessary independent reviews and readings before signatures were appended.

New music is however OTW, and will answer all remaining questions. Anticipate.

RBA for life!
