PRESS RELEASE

KEN OFORI-ATTA UNDERGOES SUCCESSFUL CANCER SURGERY

My husband, Ken Ofori-Atta, the former Finance Minister, has undergone the scheduled robotic assisted radical prostatectomy. This was to deal with prostate cancer and it was done at the Mayo Clinic in Rochester Minnesota on Friday June 13th. The procedure took 4+ hours.

The doctors are pleased with how the procedure went and will now place him on a postoperative regime.

Kenneth has always been resilient. But this has been very difficult; with the OSP choosing the period just before his surgery to declare a red alert on him.

Kenneth is bearing up well and focused on doing whatever he can to be restored to good health.

Our Family is truly grateful for the support and prayers of many people and pastors.

Signed

Prof. Mrs. Angela Ofori-Atta
Wife
