

NATIONAL IDENTIFICATION AUTHORITY

PRESS RELEASE

NIA Announces Implementation of Revised Fees and Charges Following Parliamentary Approval

The National Identification Authority (NIA) hereby informs the general public that in accordance with the *Fees and Charges (Miscellaneous Provisions) (Amendment) Regulations, 2025 (L.I. 2512)* passed by Parliament in November 2025, effective **Monday, 2nd February 2026**, there will be an adjustment of some fees and charges for registration and related services provided by NIA, under the Fees and Charges (Miscellaneous Provisions) Act, 2022 (Act 1080). Act 1080 requires public institutions to periodically review fees to reflect prevailing economic and operational conditions.

The last fee review for NIA services was proposed in 2022 and approved in 2023, based on cost assumptions at that time. The NIA has operated under the 2023 fee structure for over two years, during which operating costs have increased cumulatively without corresponding fee adjustments. While exchange rate conditions have stabilised, key cost drivers of the National Identification System – including technology licensing, cybersecurity services, utilities, logistics, and personnel – remain elevated and are largely non-reversible.

Again, the Ghana Card has evolved into critical national infrastructure, and its long-term sustainability requires periodic, modest fee realignment after prolonged cost absorption regardless of exchange rate movements.

In view of this, kindly find below a list of new fees and charges for NIA registration activities. The full list of fees and charges is available on NIA's website at www.nia.gov.gh
